

A KIDNEY FOR STONEY

I was diagnosed with PKD (Polycystic Kidney Disease) in August 2011. In November 2020, I was lucky to receive my first kidney transplant by a living donor. Her selfless act of donating a kidney has truly changed my life in ways I can never fully express. Unfortunately, there have been some setbacks beyond my control which caused my body to reject my transplanted kidney that we call "sunshine." It's been challenging; however, I refuse to lose hope.

As I navigate this new chapter, I find myself once again in need of a kidney donor. If donating a kidney to me is something you would like to consider, I would be happy to tell you more about my story and explore the process of determining if you are a match for me

If donating a kidney to me is something you would like to consider, please contact me at AKidneyforStoney@gmail.com

My health insurance will pay 100% for the following for the donor.

- * Evaluation to determine if the person is a good candidate for living donation
- * Donation Surgery & Post-operative care
